

KELTECH LTD

AC Motors (Aluminum, Stainless Steel), Right Angle Gearing (Aluminum, Stainless Steel), Gearmotors, Brakemotors

Offering a complete line of sanitary drive components, Keltech LTD has been powering the food industry for over 30 years. Utilizing both stainless steel and aluminum construction materials; Keltech LTD motors are built to withstand the rigors of high pressure, high temperature, chlorinated washdown practices and are rated IP69K, the highest level of ingress protection available.

Keltech LTD takes great pride in its industry leading innovative products and unparalleled customer service. Complimentary products include right angle worm gearboxes, brakemotors, ratio multipliers and variable frequency drives.

REULAND ELECTRIC

AC Motors, AC and DC Motor Brakes, Fluid Couplings, Gearboxes, Flexible Couplings, Adapters, Cooling Systems, Permanent Magnet Motors, Motor Laminations, Custom Contract Work

Reuland traces its history back to the 1930's when Frank Reuland, still in high school, rebuilt and repaired electric motors in his garage in Alhambra, CA. Today, Reuland Electric manufactures motors for numerous industries and applications; elevators, cranes, hoists, bridges, marine, military, general industrial and custom OEM work.

Reuland Electric also offers motor accessories, prototyping, foundry and machining services along with full engineering staff to help with your unique application.

ANDCO ACTUATORS

Actuators and electrical and electronic accessories for its actuator selection

No need to worry about air compressors or hydraulic lubrication, Andco electric linear actuators are self-contained, electro-mechanical actuators designed for precise positioning and automation of material handling and flow control equipment.

KML BEARING USA

Single and Double Row Ball Bearings, Cast Iron & Pressed Steel Mounted Bearing Units, Stainless Steel & Thermoplastic Corrosion Resistant Products, Steel-On-Steel Radial Spherical Plain Bearings, Agricultural Bearings & Disc Harrow Units, Tapered Roller Bearings (Cups & Cone Sets)

KML is a premium quality manufacturer of bearings, offering tier one features and benefits at competitive prices. They are known for their Platinum Series corrosion resistant products, but also provide, cast iron and thermo plastic housed units, as well as radial ball bearings, spherical plain bearings, agricultural bearings, and some popular tapered roller bearings in cup and cone sets. KML also offers K-Poly Solid Lube in many of their bearings to tackle your most extreme conditions.

SITI POWER TRANSMISSION

IEC/Metric Power Transmission Equipment, AC & DC Motors, Inline & Right Angle Gearing, Couplings & Motor Controls

SITI Power Transmission USA is based in Littleton, MA and offers a complete line of IEC/Metric power transmission equipment including electric motors, gearboxes, gearmotors, frequency drives, speed variators and flexible couplings. SITI Power Transmission products are interchangeable with any major European manufacturer.

CLEVELAND GEAR

Right Angle Worm Gearboxes (Cast Iron, Stainless Steel), Parallel Shaft Gearboxes, Helical Gearboxes, Shaft Mounted Gearboxes, Open Gearing, Custom Drives, Field Service and Rebuilds

Cleveland Gear has been producing worm gearing and enclosed drives for over 100 years, and is recognized as the industry leader in their field. In addition to their standard products, Cleveland Gear offers open gearing, custom drives, service and rebuild/refurbishment of any manufacturer's gearbox, and can provide solutions for most any industrial application.

Not all product lines are available in each individual state. Please consult your sales representative for details.
